Product Description

Product Overview and Key Features

- A functional and practical bench for your hallway, living room, bedroom, dressing room, bathroom, reception, and office.
- The frame and upholstery are crafted from high-quality materials for lasting durability.
- Each bench is produced according to customer requirements with precise workmanship directly from the manufacturer.

- Customize material, seat type and upholstery, color, and addons such as a hanger, drawer, mirror, storage box or wall panel.

By purchasing from **EMRA WOOD global**, you are choosing a non-prefabricated product made to your exact specifications. Every bench is tailored to your space and designed to reflect your individual requirements.

The bench is delivered fully assembled, so it is ready to use immediately.

Technical Specification

Technical Specification

Overall Form Factor

- **Type:** Backless, armless channel-tufted upholstered bench.
- **Style:** Contemporary design that pairs richly textured channel-tufted upholstery with a sleek angled metal frame; the outward-splayed leg geometry creates visual lightness and a confident, dynamic silhouette.
- **Geometry:** Rectangular seat profile with uniformly spaced channel tufting; the angled legs produce a progressively wider stance from seat to floor.

Frame and Base

- **Material/Profile:** Constructed from metal tubes with a matte black powder-coat finish for a refined, modern aesthetic.
- **Leg Design:** Four individually placed legs, each angled symmetrically outward from the seat edges, creating a stable splayed stance with a wider footprint at floor level than at seat level.
- **Mounting:** Seat cushion mounted flush with the outer perimeter of the upper frame for a clean, seamless finish.

Seat and Upholstery

- **Cushioning:** Generously padded seat using high-density foam; deeply sewn channel tufting runs across the full width of the seat, forming defined parallel ribs that give the bench its characteristic structured texture.
- **Fabric/Color Palette/Pattern:** Wide range of fabric and color selections.
- **Stitching:** Precision channel seams create evenly spaced, consistently raised ribs that remain taut across the full seating surface.
