Bench No. 4

Shipping time	**20 days**
SKU	**BEN-F004-M-USLQ-DR-PL**
Producer code	**4-M-USLQ-DR-PL**
Manufacturer	**EMRA WOOD global**

Product Description

Product Overview and Key Features

- A functional and practical bench for your hallway, living room, bedroom, dressing room, bathroom, reception, and office.
- A refined combination of powder-coated metal legs with ball feet and an exposed solid wood seat frame — available in Alder, Ash, or Oak — creating a warm and elegant base for every interior.
- Bench No. 4 introduces the **Mixed Seat** — a unique combination of a solid wood Thin Board on one side and an

upholstered pad on the other. The customer can freely choose whether the board is positioned on the left or the right, making each bench a truly individual piece.
- Also available with a full upholstered seat, in both flat and tufted variants.
- An optional tall wall panel transforms the bench into a dramatic statement piece for any room.
- Each bench is produced according to customer requirements with precise workmanship directly from the manufacturer.
- Customize the leg finish, seat apron wood species and stain, upholstery fabric and color, seat type, and optional addon elements.

By purchasing from **EMRA WOOD global**, you are choosing a non-prefabricated product made to your exact specifications. Every bench is tailored to your space and designed to reflect your individual requirements.

The bench is delivered fully assembled, so it is ready to use immediately.

Please note: due to the structural leg configuration, the maximum bench length is **100 cm**.

Technical Specification

Technical Specification

Overall Form Factor

- **Type:** Backless, armless bench with an exposed solid wood seat frame, powder-coated metal legs with ball feet, and a slim-profile quilted seat with button tufting with drawer and wall panel.
- **Style:** Warm contemporary design — the exposed solid wood seat apron combined with the slender splayed metal legs and ball feet creates a refined, timeless silhouette. The slim quilted seat combines the structured texture of button tufting with a reduced height — a refined and contemporary profile.
- **Geometry:** Rectangular seat profile; four individually splayed legs with ball feet create a stable, progressively wider stance from seat to floor.
- **Maximum Length:** Due to the structural leg configuration, the maximum bench length is **100 cm**.

Frame and Base

- **Leg Material:** Metal, powder-coated. Available in multiple finish colors including brass/gold, black, and other standard options.
- **Leg Design:** Four individually placed legs, each angled symmetrically outward from the seat edges, with a decorative ball foot at the base of each leg.
- **Seat Apron / Base Frame:** A visible solid wood frame surrounding the seat perimeter. Available in three wood species: **Alder**, **Ash**, or **Oak**. Stain color and finish are fully parametrized to match your interior.

Wall Panel

- **Construction:** A tall upholstered wall panel structurally connected to the bench frame, rising vertically from the rear of the seat base.
- **Upholstery:** Fully upholstered on the front-facing surface with deep button tufting, matching or complementing the seat upholstery.
- **Height:** Panel height is selectable — allows for a commanding full-height panel functioning as a visual room divider or statement backdrop.
- **Fabric / Color Palette:** Panel fabric and color can be selected independently from the seat upholstery, or matched for a unified look.

Drawer

- **Material/Profile:** High-quality wooden drawer with precise craftsmanship.
- **Construction:** Drawer is integrated into the bench frame.

Seat and Upholstery

- **Cushioning:** Slim-profile seat pad with high-density foam and deep button tufting — lower visual height paired with a richly textured surface.
- **Upholstery Style:** Button tufting on a slim-profile cushion.
- **Fabric / Color Palette:** Wide range of fabric and color selections from our collection.
- **Stitching:** Precision tufting stitches remain taut and evenly spaced across the slim seat surface.
