Chair No. 3

Number	CHA-F003-W-U
Producer code	KR-8
Manufacturer	EMRA WOOD global

Product description

Product Overview and Key Features

- An elegant fully upholstered armchair with a sculptural enveloping shell — a seamless blend of modern design and exceptional seating comfort.
- The continuous curved shell wraps around the seat and sides to form integrated armrests, creating a cocoon-like embrace that is both visually striking and physically supportive.
- A signature oval cutout at the back of the shell adds lightness to the design and gives the chair its distinctive,

contemporary character.

- Dark-stained solid wood legs in a tapered, splayed form provide a stable base and a refined visual contrast to the soft upholstered shell.
- Each chair is produced according to customer requirements with precise workmanship directly from the manufacturer.
- Choose your upholstery fabric and leg stain finish to perfectly match your interior.

By purchasing from **EMRA WOOD global**, you are choosing a non-prefabricated product made to your exact specifications. Every chair is tailored to your space and designed to reflect your individual style.

The chair is delivered fully assembled, so it is ready to use immediately.

Please note that for sets of 4 or 6 chairs, additional delivery costs may apply depending on the destination country. Please contact our team to find out the exact shipping costs for your order.

Technical Specification

Overall Form Factor

- **Type:** Fully upholstered armchair with an enveloping curved shell forming integrated seat, backrest, and armrests as a single continuous structure.
- **Style:** Contemporary elegant — the soft, all-encompassing upholstered shell is the defining design statement, creating a refined cocoon silhouette with a modern character.
- **Signature Detail:** An oval cutout through the upper back of the shell introduces visual lightness and gives the chair its distinctive, recognizable form from all angles.
- **Geometry:** The shell curves inward at the top and wraps around both sides, meeting the seat in a smooth, continuous line — compact yet generous in its enveloping form.

Frame and Base

- **Leg Wood Species:** Available in three solid wood options — **Alder, Ash, or Oak** — each offering a distinct natural grain character.
- **Leg Design:** Four tapered, slightly splayed legs with a clean conical profile — providing structural stability and a light, elegant visual stance beneath the upholstered shell.
- **Leg Stain / Finish:** Every wood species can be finished in any stain color from our collection. Shade, tone, and intensity are fully parametrized to match your interior exactly. Dark and black stain finishes are particularly well-suited to this model.

Seat and Upholstery

- **Shell Construction:** The seat, backrest, and integrated armrests are formed as a single upholstered shell with a high-density foam core, providing firm yet comfortable support in all directions.
- **Seat:** Generously proportioned and fully integrated within the shell, with a smooth transition into the surrounding armrest and backrest structure.
- **Backrest:** Fully upholstered on both inner and outer surfaces. The outer back features a signature oval cutout as a sculptural accent.
- **Fabric / Color Palette:** Wide range of fabric and color selections from our collection.
- **Stitching:** Precision seams follow the contour of the shell — most prominently along the top arc of the backrest — for a tailored and refined finish.
