Producer code	**KR-78**
Manufacturer	**EMRA WOOD global**

Product Description

Product Overview and Key Features

- A refined dining chair that pairs a sculptural bent-wood backrest with a softly upholstered seat cushion — a striking dialogue between natural structure and tailored comfort.
- The backrest is formed from curved, layered wood veneer, arching broadly at the top and tapering gracefully toward the seat, giving the chair a light, sculptural presence from every angle.
- A signature arch-shaped cutout at the base of the backrest reveals the natural wood grain on both faces and lends the

chair its distinctive, instantly recognizable silhouette.
- Slender, tapered, splayed solid wood legs provide a stable base and echo the refined, flowing lines of the backrest.
- Each chair is produced according to customer requirements with precise workmanship directly from the manufacturer.
- Choose your upholstery fabric and wood stain finish to perfectly match your interior.

By purchasing from **EMRA WOOD global**, you are choosing a non-prefabricated product made to your exact specifications. Every chair is tailored to your space and designed to reflect your individual style.

The chair is delivered fully assembled, so it is ready to use immediately.

Please note that for sets of 4 or 6 chairs, additional delivery costs may apply depending on the destination country. Please contact our team to find out the exact shipping costs for your order.

Technical Specification

Technical Specification

Overall Form Factor

- **Type:** Dining chair with a molded curved wood-veneer backrest and a separately upholstered seat cushion, without armrests.
- **Style:** Minimalist, Scandinavian-inspired design that balances an expressive bent-wood silhouette with soft, tailored seating comfort.
- **Signature Detail:** An arch-shaped cutout at the base of the backrest, visible from both the front and back, giving the chair its distinctive, recognizable form from all angles.
- **Geometry:** The backrest curves asymmetrically — broad and rounded at the top, tapering into a narrower base where it meets the seat, with the signature cutout set within this taper.

Frame and Base

- **Leg Wood Species:** Available in three solid wood options — **Alder**, **Ash**, or **Oak** — each offering a distinct natural grain character.
- **Leg Design:** Four slender, tapered, slightly splayed legs with a clean round profile — providing structural stability and a light, airy visual stance beneath the seat.
- **Leg Stain / Finish:** Every wood species can be finished in any stain color from our collection. Shade, tone, and intensity are fully parametrized to match your interior exactly. Natural and light stain finishes are particularly well-suited to this model, allowing the wood grain of the backrest to remain the visual focus.

Seat and Upholstery

- **Backrest Construction:** Formed from curved, layered wood veneer, finished in matching wood tone on both the front and back faces and joined to the seat frame with visible fixing screws for an authentic, crafted look.
- **Seat:** A separately upholstered cushion with a high-density foam core, fixed atop the wood base frame for firm yet comfortable support.
- **Backrest:** Not upholstered — the wood-veneer shell is left exposed on both faces, letting the natural grain and the signature arch cutout stand out as the design's focal point.
- **Fabric / Color Palette:** Wide range of fabric and color selections from our collection.
- **Stitching:** Precision seams follow the contour of the seat cushion for a tailored and refined finish.
